

Our Mission

Our School promotes a positive ethos within a stimulating and enjoyable learning environment. It is founded on the Christian values of thankfulness, forgiveness, friendship, fellowship and trust in which personal responsibility, self-respect and respect for others are central to our children's growth. Every child is seen as a unique individual loved by God, is equally valued and is fully supported and encouraged to do their very best in everything they do.

Our Vision for the future

Our school is judged by all as outstanding.

The children in our school are flourishing, enjoying their learning and reaching their potential. In particular the vulnerable are achieving outstanding outcomes. Our children are well behaved, confident and comfortable with their peers and other people.

Our teachers are passionate and inspirational. They are delivering an excellent, well-rounded curriculum moulded around each individual child. They are committed to their own development as educators and specialists and they are fully supported to reach their potential by the school leaders and the governors.

Our school is well managed and progressive, with leadership encouraged at all levels. Our indoor and outdoor facilities and our resources support excellence in learning and teaching. Our process of governance is rigorous, efficient and effective.

Our school has a strong sense of family and community spirit, centred on Christian Values and our close relationship to St Mark's Church. Parents feel encouraged to participate fully in their children's journey through the school.

Our priorities over the next three years:

1. To achieve 'outstanding' in the next Ofsted Inspection.
2. To improve the outdoor environment including the development of a reflective space to provide further opportunities for spiritual development.
3. To retain and recruit outstanding teaching staff.
4. To achieve the Eco Schools Gold Award.
